Trademark Registration Treaty

In December 1972, the last of a series of six international conferences of governmental, inter-governmental, and private experts was held for the purpose of preparing draft articles and regulations of the Trademark Registration Treaty (TRT) for consideration at the Diplomatic Conference which will be convened in Vienna, Austria, on May 17, 1973.

The Patent Office is most interested in receiving comments from the public expressing their views on the Treaty in order to assist the United States in developing the best overall approach to the Vienna negotiations.

In order to insure that we will receive the benefit of informed judgments of trademark owners, attorneys, and other interested persons on the proposed Treaty documents, copies of Patent Office studies and other materials concerning the Treaty will be made available to interested persons or associations on their request.

The Patent Office will make every effort in responding to requests to provide materials which will meet the particular needs of individuals and associations. It is our intention to provide the public with information which is factual and as complete and balanced as possible in regard to the Treaty and the issues concerning it which are of interest to the United States. Our objective is to assist interested businessmen and trademark practitioners in formulating their own views on the Treaty and on the relevant issues.

The final conference text of the articles of the proposed Treaty was published in the OFFICIAL GAZETTE of September 19, 1972. It is planned to publish the conference text of the regulations as soon as possible (probably late in February 1973) after its release by the World Intellectual Property Organization (WIPO). As previously announced, final comments on these documents should be submitted to the Patent Office prior to April 6, 1973.

Requests for information concerning the Treaty and final comments should be addressed to:

Commissioner of Patents
Washington, D.C. 20231

ROBERT GOTTSCHALK,
Commissioner of Patents.
